WORK EXPERIENCES

Brillio

Associate Engineer (Dec 2024-Current)

- Project:- **Operational Center**
- Tech stack: Node.js, Express.js, React.js, SQL, Python
- Developed and maintained scalable MERN-based applications handling large operational workflows, improving system reliability and reducing downtime
- Optimized Python-based scheduled jobs, reducing execution time by 75% (40 → 10 minutes), improving data pipeline efficiency
- Designed and implemented REST APIs, microservices with Node.js and Express, handling high-volume requests with optimized SQL queries
- Debugged and resolved production issues, ensuring high availability and faster incident resolution
- Leveraged AI-assisted development tools including ChatGPT, Claude, and GitHub Copilot to accelerate development, improve code quality, and deliver features with faster turnaround times.

Hewlett Packard Enterprise (HPE)

HPE CTY Intern (01/23-06/23)

- Project: - **Security Scanning of Web Application**
- Tech stack: Vulnerabilities, Zed Attack Proxy (OWASP ZAP), Django (Python), Bootstrap.
- Built a web application security scanning system using **Django and OWASP ZAP** to detect vulnerabilities
- Automated vulnerability detection workflows, improving security assessment efficiency
- Solved key technical challenges in integrating scanning tools with web applications

PROJECTS

Ticket Management System

- Built a full-stack ticketing system using **Spring Boot** and **React.js** to manage support requests
- Designed REST APIs and implemented authentication using JWT
- Added features like ticket prioritization, filtering, and status tracking
- Applied role-based access control and optimized database queries for performance

Movie Recommender System

- Built a machine learning-based recommender system using collaborative filtering (user-based & item-based)
- Improved recommendation accuracy by analyzing user behavior and rating patterns
- Optimized data processing for large datasets

SKILLS

Languages: Python, JavaScript, Java, C

Frameworks: Node.js, Express.js, React.js, Spring Boot, Django

Core Concepts: Data Structures & Algorithms, OOP, OS, Computer Networks

Databases: SQL, DBMS

Tools: Linux, Git, GitHub, ChatGPT, Claude, GitHub copilot

EDUCATION

B.E. Information Science, VidyaVardhaka College, Mysuru India (9.1 CGPA)

Jul 2020-2024

Shastry Composite PU College (PCMC), Hunsur, India (83%)

Apr 2018-2020
